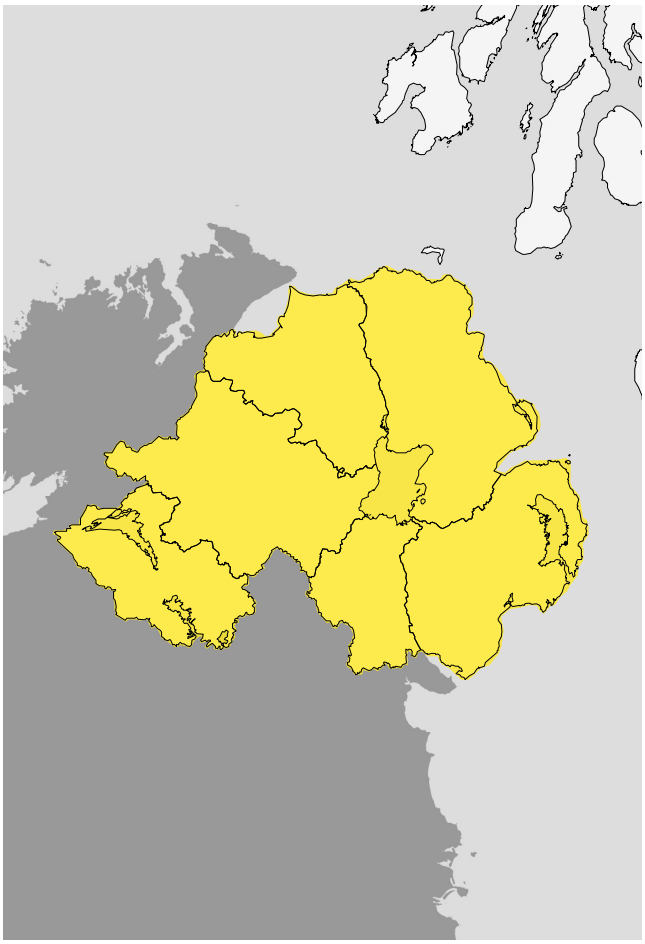
21:00 Mon 8 May 2023



Heavy showers and thunderstorms may lead to some localised disruption

What to expect

- Probably some damage to a few buildings and structures from lightning strikes
- Some flooding of a few homes and businesses likely, leading to some damage to buildings or structures
- There is a good chance driving conditions will be affected by spray, standing water and/or hail, leading to longer journey times by car and bus
- Delays to train services are possible
- Some short term loss of power and other services is likely

Further details

Heavy showers are expected to develop by the afternoon across Northern Ireland, aided by daytime heating. These may turn heavy and thundery at times, with a risk of hail. The heaviest showers are most likely in the east of the Province. Totals of 30-40mm in a couple of hours are possible.
